After speeches were done. We continued with an icebreaker activity with the audience. It is a game where everyone was given a piece of chocolate and according to the chocolate wrapper they received they are asked different questions about themselves, their family, friendship, etc. All of the guests appreciated the icebreaker activity.

We finished with concluding remarks and continued with questions and conversation over dinner.

We had 17 adult guests and 2 children, (10 of our confirmed guest had to cancel due to a funeral service in their church), 7 members from Binghamton NY Majlis.

Our Guests came from different faiths (different sects in Christianity, Shia Muslim, Sikh)

Allhamdolillah we received really positive feed back and overall our first tabligh interfaith event was successful. May Allah help us to spread the message of Islam and Ahmadiyyat on more frequent occasions, Amin.
